Service. Integrity. Relationship.

Comfort, support, plush, and contoured – these are just a few words that describe the Savannah Model 5010. This chair truly redefines the term “elegance” among conference chair manufacturers; it’s no wonder others attempt to copy this unique blend of comfort, elegance and durability. With its award winning and patented Ergo-V back support system, triple action lumbar and Dual Density Ultra Foam™, the 5010 offers a firm yet plush sit. Let’s face it, when your guests are comfortable, they are more inclined to have a good time.

Specifications

Seat Configuration: Dual Density Ultra Foam™! The Savannah 5010’s contoured S-shape seat with exclusive 2 lb. BLUE foam provides the right mix of rigidity and spring, giving you unmatched comfort and performance.

Back Configuration: Ergonomically Enhanced! Our Ergo-V seat back with triple action lumbar support and 2.5 inches of 1.5 lb. commercial grade foam poly, including: built-in Ergo-V, passive lumbar, and positive 1-inch foam poly lumbar support (3.75 lbs. injection molded polymer), provide unequalled support and comfort.

Frame Configuration: Industry’s Strongest Frame! Radius 16 gauge 1010 cold rolled steel with integrated solid Flex-Action Torsion Bar System (6% additional strength over standard tubing).

Clear Glides And Stack Buttons: Glides for life! Non corrosive ribbed and bootied self-leveling rocker glides eliminate swivel-glide failure; provided for the life of your chair. Friction fit, non-rigid polymer stack buttons stay in place preventing marring and snagging during stacking or scooting.

Fabric: Standard 16oz. Polyolefin fabric, tested to 250,000 double rubs with 10 year stain warranty. Other contract fabrics from 30,000 double rubs also available.

Finish: Ultra-durable powder-coat is electrostatically applied and baked at over 400 degrees. Saltwater tested for over 800 hours. 8 designer finishes and 7 standard finishes. Chrome and brass plating also available.

Options

High Resiliency Seat Cushion: The ultimate in comfort. Bertolini’s 3lb. high resiliency contoured seat makes for a firm yet comfortable sit for any period of time.

Interlocks: Two types of interlocks are available: straight interlocks hold chairs tightly together, while radius interlocks allow enough space between the chairs to make a semi-circle.

Book Pouch: Sewn-in book pouches are made with heavy-duty 2-inch elastic strapping; holds one medium-sized book (9.5 inches x 6.25 inches x 1.75 inches).

Card Pocket: Card pockets can hold a large number of cards, large or small (4 inches deep x 14 inches wide).

Bookrack: Accessible from the front and rear of the seat, with capacity to hold two large books.

Testing

Exceeds all BIFMA and BISC standards. Meets California TB117 Flammability requirements.

Warranty

20 years structural, 10 year components.
