Service. Integrity. Relationship.

The retro TitanLM 81606 and 81806 Banquet Stackers feature the technologically advanced Flex-Fit™ seat with BosScrew™ technology, Sure-Set front t-nut mounted single-piece upholstered back, 16 gauge 1010 cold rolled carbon steel frame, and Bertolini's exclusive 2-lb. BLUE commercial-grade foam-rolled front seat cushion. This winning combination creates a level of durability unmatched by other manufacturers in the industry. The TitanLM is truly the "mainstay" of stackable banquet chairs.

Specifications

Seat Configuration: Zero-Maintenance Seat! The new Flex-Fit™ blow-molded seat and Fit-Tight™ fastening system with self-tightening BosScrew™ provide unmatched comfort and performance. The Flex-Fit™ seat's contoured S-shape saddle with Bertolini's exclusive 2-lb. BLUE rolled front foam cushion provides the right mix of rigidity and spring.

Back Configuration: No Backs Popping Off! Sure-Set single-piece back featuring rock-solid durability with t-nut construction stays put and will not separate.

Frame Configuration: Industry's Strongest Frame! Radius 16 gauge 1010 cold-rolled steel with integrated solid Flex-Action Torsion Bar System (6% additional strength over standard tubing).

Glides and Stack Buttons: Glides for Life! Noncorrosive ribbed and booted self-leveling clear rocker glides eliminate swivel-glide failure; provided for the life of your chair. Friction fit, nonrigid polymer stack buttons stay in place, preventing marring and snagging during stacking or scooting.

Fabric: Standard 16-oz. Polyolefin fabric, tested to 250,000 double rubs with 10-year stain warranty. Other contract fabrics from 30,000 double rubs also available.

Finish: Ultra-durable powder-coat is electrostatically applied and baked at over 400 degrees. Saltwater tested to over 800 hours. 7 standard finishes and 8 designer finishes. Chrome and brass plating also available.

Flexible Seat Configurations: Available in 16" banquet seat (81606) and 18" cross-trainer conference seat (81806). Space-saver seat with a traditional shorter seat depth available in a solid foundation configuration.

Options

Dual Density Ultrafoam™: A unique blend of firm 3-lb. high-resiliency foam combined with softer 1.8-lb. foam for a plush comfortable feel.

Ultrafoam™ Firm: This full 3 inches of 3-lb. HR foam adds a firmer feel with increased durability and foam resilience.

Interlocks: Two types of interlocks are available: straight interlocks hold chairs tightly together, while radius interlocks allow enough space between the chairs to make a semi-circle.

C.O.M.: Want to use a C.O.M. fabric? No problem! We will build your chairs to meet your decor needs. That's the Bertolini advantage.

Testing

Exceeds all BIFMA Testing. Exceeds all BISC testing. Meets California TBI 17 flammability requirements.

Warranty

20 years structural, 10 year components.

Flex-Fit™ Seat
